SAR BACKPACK (Search and Rescue)

DIMENSIONS

Weight: 2,75 kg

With a total capacity of 90L, SAR Backpack is ideally suited for transporting your equipment: a winch plus 100 m of rope find enough space here. To securely fix the winch (e.g. ActSafe ACX, RCX, TCX, TCXII or PMX) in the backpack, internal straps are sewn. Packed flat, the backpack, measuring 70 x 40 x 10 cm, can be checked in as luggage on air travel and be a good companion for you - whether as a bag or as a backpack. To the latter it becomes through hidden carrying straps, for use as a bag a total of three carrying handles are sewn on the side. The processing of robust materials and a reinforcement of the bottom makes the ActSafe SAR Backpack durable and offers long pleasure.

- Secure fixation of the winch by internal straps
- Flexible to use as a bag or backpack
- Durable due to robust materials
