GENERAL

Art. no.: G-0207

EAN: 4030281295181

Standard: EN

E-class number: 40-02-92-90

Customs no.: 63079098

Data sheet

SKYBOARD X

This ergonomically shaped and padded seat board is exactly the right solution for working at heights using rope access equipment for extended periods. The SKYBOARD X provides high comfort without constricting thighs when sitting for extended periods of time, and provides the needed support for solid positioning. Additional gear loops make it possible to bring tools and work utensils along when doing tasks such as rotor blade maintenance, tree care, window and facade cleaning, and fire and emergency uses. The seat board simply needs to be adjusted to the right length and then fastened using the two feather-light parachute carabiners on sit harnesses like the IGNITE NEON or IGNITE ARB. A rear snap is used to attach the board to the harness when not in use so that it is not an annoyance.

- Increased ergonomic comfort and improved sitting
- Easy to clip onto the sit harness
- Additional gear can be attached

FEATURES

Max. service life:	10 Years
Max. number of persons:	1
Temperature:	from 45 °C to -35 °C

DIMENSIONS

Size:	UNISIZE
Weight:	1,95 kg

MATERIAL

Material:
Polyester, Polyamide, Aluminium
