## KNEE ASCENT Kit

The complete KNEE ASCENT kit makes ascent using SRS techniques easier. Composed of a tube, an elastic band, a knee ascender, and a foot loop, it integrates seamlessly with your SEQUOIA harness.

With the ability to integrate with your harness by installing around the waistbelt, the KNEE ASCENT Kit makes tree climbing easier.

Connecting the two ends of the elastic band centers the rope clamp, doubles the tension of the elastic band, and makes ascending more efficient.

The catch makes it easy to install the rope in the PANTIN rope clamp.

The foot loop features a lower strap with a buckle to optimize fit around the shoe. It is also possible to connect the foot loop to the top of the shoe via an accessory carabiner like the MINO (not included).

Short Description	Complete kit for ascending using SRS techniques, can be integrated with a tree care harness
Selling Points	<ul style="list-style-type: none"><li>• Compatible with the SEQUOIA harness and other tree care sit harnesses</li><li>• Complete solution for easier ascending using SRS techniques:<ul style="list-style-type: none"><li>- Elastic band runs through the plastic tube, which is installed onto the waistbelt via textile loops on the SEQUOIA harness, or via the included accessory loops and screws</li><li>- With a high tensile strength, the elastic band wraps around the waistbelt and increases efficiency when ascending</li><li>- Each end features an eyelet to easily connect a MINO accessory carabiner (included)</li><li>- Knee ascender is composed of a PANTIN rope clamp (right) and a webbing strap with adjustable foot loop</li></ul></li><li>• Easy to use:<ul style="list-style-type: none"><li>- Quick setup using MINO accessory carabiners</li><li>- Adjustable to adapt to your height</li><li>- Catch makes it easy to install the rope in the PANTIN rope clamp</li><li>- Ends of the elastic band can be connected with the MINO accessory carabiner to center the rope clamp, increase tension, and therefore increase efficiency when ascending</li></ul></li><li>• For a more sustainable option, each component of the kit is available as a spare part</li></ul>
Specification	<ul style="list-style-type: none"><li>• Weight: 190g</li><li>• Min. rope diameter: 7mm</li><li>• Max. rope diameter: 13mm</li><li>• Rope compatibility: Low stretch kernmantle</li></ul>
