KNEE GRAB

The KNEE GRAB makes ascent using SRS techniques easier. It is used in conjunction with the SEQUOIA PLUS or another harness with a compatible mounting system.

The KNEE GRAB makes ascent using SRS techniques easier. It works seamlessly with the SEQUOIA PLUS harness.

The catch makes it easy to install the rope in the PANTIN rope clamp.

The foot loop features a lower strap with a buckle to optimize fit around the shoe. It is also possible to connect the foot loop to the top of the shoe via an accessory carabiner like the MINO (not included).

Short Description Knee ascender for ascending using SRS techniques

Selling Points

- Compatible with the SEQUOIA PLUS harness and other tree care sit harnesses with compatible mounting system
- Composed of a PANTIN rope clamp (right) and a foot loop with adjustable buckle for optimal fit on the foot; it is also possible to connect the strap to the top of the shoe via an accessory carabiner like the MINO (not included)
- Easy to use:
 - Quick setup using MINO accessory carabiners
 - Adjustable to adapt to your height
 - Catch makes it easy to install the rope in the PANTIN rope clamp
- For a more sustainable option, the textile foot loop is available as a spare part (B022CA00)
