RUBBER EX

The RUBBER EX headband adapts to a variety of helmets on the market and holds a PIXA headlamp securely in place.

Short Description Rubber headband for the PIXA headlamp, compatible with a variety of helmet types

Selling Points

- Headband has anti-static properties that allow use with the PIXA Z0 (certified to the IEC 60079-0 standard)
- Ideal for industrial helmets that are not equipped with positioning hooks for the headband
- The rubber holds the headlamp securely on the helmet
- The plate allows you to quickly and easily mount the headlamp onto the headband
- May be used in a variety of situations, including harsh environments
- Compatible with PIXA, PIXA Z0, and PIXA R headlamps
- Buckle adjustment system is easy to use

Specification

- Weight: 35g
- Certification(s): Certified to the IEC 60079-0 standard
