COBRA 60

Ultra-Light-weight, Compact Round Sling

Lifting: Certified as a high-performance round sling.

Ultra-light: 52g per meters.

Compact: Due to its compact size the Cobra 60 can fit through almost anything, even a rigging plate.

Ease of mind: With its 60kN breaking strength, it still exceeds the required 22kN using various knots.

Certifications: Certified to EN795:2012 Type B, CEN TS 16415:2013 (2 persons), EN354:2010, ASME B30.9 2021 Complies with ANSI Z359.18:2017

Supports two users: Safely accommodates two individuals simultaneously.

Softness: Its softness makes it extremely easy to knot.

Abrasion-resistant cover: Comes with a wear-resistant cover, no additional cover needed*

*Under normal use, provided the environment is being assessed carefully.
